ELSEVIER

Hydrometallurgy 38 (1995) 325–326

hydrometallurgy

Contents Volume 38

Vol. 38 *No.* 1

The extraction of some metal ions by LIX 1104 dissolved in toluene
B.K. Tait, K.E. Mdlalose and I. Taljaard 1
Stoichiometric relation for the extraction of the gold–thiourea complex with D2EHPA
S.-G. Kim, H.-Y. Lee, J.-K. Oh and E.-C. Lee 7
A calculation method for determining equilibria in metal–ammonia–water systems
S. Zhong and M.T. Hepworth 15
A study of the bioleaching of a Spanish uranium ore. Part I: A review of the bacterial leaching in the treatment of uranium ores
J.A. Muñoz, F. González, M.L. Blázquez and A. Ballester 39
A study of the bioleaching of a Spanish uranium ore. Part II: Orbital shaker experiments
J.A. Muñoz, A. Ballester, F. González and M.L. Blázquez 59
A study of the bioleaching of a Spanish uranium ore. Part III: Column experiments
J.A. Muñoz, M.L. Blázquez, A. Ballester and F. González 79
Bioleaching — our experience
K.K. Dwivedy and A.K. Mathur 99

Vol. 38 *No.* 2

Research papers
Solubilities of amorphous Fe–As precipitates
E. Virčíková, Ľ. Molnár, P. Lech and E. Reitznerová 111
Kinetics of the aqueous chlorination of gold in suspended particles
J. Viñals, C. Núñez and O. Herreros 125
Kinetics of millerite dissolution in cupric chloride solutions
R.C. Hubli, T.K. Mukherjee, S. Venkatachalam, R.G. Bautista and C.K. Gupta 149
Precipitation of iron oxides from ammonia–ammonium sulphate solutions
R.P. Das and S. Anand 161
Dissolution of particles of pyrite mineral by direct attachment of *Thiobacillus ferrooxidans*
. Shrihari, J.M. Modak, R. Kumar and K.S. Gandhi 175
Selective leaching of a polymetallic complex ore by sulphuric acid and thiourea mixed with sea water
D.-E. Akretche, S.K. Slimane and H. Kerdjoudj 189

Technical Note
Composition of complexes with Mo(VI), Fe(III), Cr(III) and Ni(II) with Versatic acid, during the hydrometallurgical processing of a ferrous scrap
A.K. Moutsatsou, S.G. Tsivilis and S.G. Tsimas 205

0304-386X/95/$09.50 © 1995 Elsevier Science B.V. All rights reserved
SSDI 0304-386X(94)9999-Z

Short Communications
Hydrometallurgy and electrometallurgy at the Regional Research Laboratory, Bhubaneswar, India
R.P. Das 215
The leaching of sulfide minerals in chloride media
F. Habashi 219

Meeting Announcements 221

Erratum 223

Vol. 38 *No.* 3

Investigation of the direct hydrometallurgical processing of mechanically activated complex sulphide ore, Akarem area, Egypt
A.M. Amer 225
Hydrolysis of zinc chloride in aqueous ammoniacal ammonium chloride solutions
J.L. Limpo, A. Luis and M.C. Cristina 235
Precipitation of crystalline scorodite ($FeAsO_4 \cdot 2H_2O$) from chloride solutions
G.P. Demopoulos, D.J. Droppert and G. Van Weert 245
Preparation and decomposition of ammoniojarosite at elevated temperatures in H_2O–$(NH_4)_2SO_4$–H_2SO_4 media
G.K. Das, S. Anand, S. Acharya and R.P. Das 263
The use of carbon paste electrodes with non-conducting binder for the study of minerals: Chalcopyrite
I. Lázaro, N. Martínez-Medina, I. Rodríguez, E. Arce and I. González 277
Alcohol-modified hydrochloric acid leaching of sea nodules
R.K. Jana, D.D.N. Singh and S.K. Roy 289
The use of dicyclohexano 18 crown 6 as an extractant–carrier for the recovery of chromic acid
A. Zouhri, M. Burgard and D. Lakkis 299
Effect of surfactants on zinc and iron dissolution rates during oxidative leaching of sphalerite
G. Owusu, D.B. Dreisinger and E. Peters 315
